## **DETAILED ACTION**

### ***Response to Amendment***

Upon reconsideration, the amendment filed December 16<sup>th</sup>, 2005, has been entered.

### ***Response to Arguments***

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Allowable Subject Matter***

Claims 1-16, 18-20 and 22-26 are allowed.

The following is an examiner's statement of reasons for allowance: Applicants' arguments, filed March 6<sup>th</sup>, 2006, regarding the analogousness of the Takahata prior art reference are persuasive in accordance with MPEP § 2141.01(a).

Therefore, the prior art of record neither teaches nor reasonably suggests an X-ray rotor core having at least one slot, at least one bar and further having a non-sprayed on, non-corrosive sleeve directly coupled to, at least partially covering/coupled over, and rotatable with the rotor core, as required by the combinations as claimed in each of claims 1, 16, 18 and 22.

Claims 2-9, 11, 12, 14, 15, 19 and 23-26 are allowed by virtue of their dependency.

Claims 10, 13 and 20 remain allowable for reasons as stated in the previous Office action, dated November 17<sup>th</sup>, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
